

**Brown County Indiana 2nd Amendment
Freedom Fighters [Worldwide Freedom Rally](#)
Hearth of Christ Ministries**

[Current Times, End-Times, Better Times, and A Way Ahead](#)

By Tim J. Clark – Nov 20, 2021.

I want to **thank** the organizers of the Rally. It takes a lot of **work** and energy to organize an **event** like this.

I also want to thank you all for being here today. It's hard to believe the dangers that threaten us, our families, and our Republic. It makes you appreciate the courage and commitment exhibited by the patriots in 1776, where Thomas Paine remarked: *"If there must be trouble, let it be in my day, that my child may have peace."*

In my talk, I want to touch on three areas: The **current times** – which led us here today, the **End-Times** as prophesized in the Bible, which leads to the **Better-Times** but not necessarily in that order. I will frame these topics using a wargaming strategy that can help us to better assess the **Actions of our adversaries**, Our **Reactions to these Actions**, followed by **Our Counteractions**. Counteractions include what we can continue to do to push back and new things we can do to help make our county and Nation stronger and more resilient.

The Bottom-Line Up Front?

America is under attack. Challenges include a more pervasive belief that man and a larger, more tyrannical, and controlling government inspired by Marxist philosophies, will lead to man's version of utopia. History, however, indicates that this "utopia" is Hell on earth.

An open letter from over 120 retired Generals and Admirals reinforces the threat:

"Our Nation is in deep peril. We are in a fight for our survival as a Constitutional Republic like no other time since our founding in 1776. The conflict is between supporters of Socialism and Marxism vs. supporters of Constitutional freedom and liberty."

"Marxism" is the most common term used to describe the underlying principles being applied to weaken and destroy our Republic. These principles are the foundation for political systems that include socialism and communism. Marxist ideals include the centralization of power and control over the many by the few. History identifies that this never ends well.

Where God is Love, Marxism is Hate: *"Marx's socialist theories are all based on a fundamental belief in the existence of God, but a hatred and opposition to everything God has taught."*

Ironically, Marx was raised in a Christian home but later abandoned God and associated with Satan. "Marx declared: *"I long to take vengeance on the One Who rules from above ... We make war against all prevailing ideas of religion, of the state, of country, of patriotism."*

In addition to the political and cultural challenges we are confronting, we are also in a **Spiritual War**.

Where may things be headed in the long-term? The Bible gives us a heads-up.

Prophecy identifies that the influence of Satan combined with man's desire for power and centralization of power would result in a one-world government. This leads to Armageddon – the final battle in the Middle East between good and evil, where Christ returns, defeats evil, and establishes Peace on Earth which ushers in The Good Times.

What no one knows other than God is the "When" and "How Bad" it can get for us. This behooves us to always be prepared. Mathew states *"But about that day or hour, no one knows, not even the angels in heaven, nor the Son, but only the Father."* – (Mathew 13:32, NIV)

It may be interesting to note also that Prophecy does NOT identify that a world power such as the United States comes to the aid of Israel in the final battle between good and evil.

So, what might happen to America, and what can we do to be more aware and prepared? How does America and the world transition to this "one world government"? What could be some indicators?

One indicator may be what is referred to as the Great Reset. The Great Reset outlines the Marxist strategy supported by globalists and elites for controlling the world.

To quote: "*It is a reorganization of human society. **That means a massive change**, -- the outright elimination of our economy, income sources and jobs, private property, personal privacy, individual choice, families as we know them, information sources, communication, entertainment, energy source and use, education process, food source, housing, cities, farms, health care, national sovereignty, **and our system of government**. And the goal is to accomplish it all by 2030. Now, how could that be possible?" The Great Reset. (Tom DeWeese, AmericanPolicy.Org)*

Arguments have been made that Covid, vaccines, mandates, and shutdowns are part of the plan in support of this Great Reset.

Catholic and Christian Clergy have raised the alarm. In the case of the Catholics, the Pope is being challenged for his support of Covid policies and the Great Reset. The Pope has stated that "**Humanity needs a global reset because the unjust, pre-pandemic world is not worth going back to.**"

Statements by medical professionals as well as by Christian clergy have associated Covid related policies as leading to crimes against Humanity.

Cardinal Vigano is among the Catholic Leadership, raising the alarms and associating the goals of the Great Reset with the conditions leading to the End-times.

The Cardinal has expressed his fury at other members of the Catholic clergy and Pope Francis himself for *not only* facilitating "**crimes against humanity**" but taking "**satanic action against God.**"

Given this global context and this Great Reset that leverages Covid policies to support the "massive changes," it may beg the questions: **How does this affect us? What can we do? What will it take to fight back successfully and win?**

This Freedom Rally is a start. Projects such as those identified in the Great Reset are supported within America by the Biden Administration's policies and actions, including Build Back Better (BBB). They assume that they can maintain momentum for achieving their goals.

In countering the strategies of our adversaries, we can assess the dynamics related to the change cycle. This dynamic involves three aspects of change: Action, Reaction, and Counteraction.

Actions by our adversaries include what is currently happening today? What brought us here?

Our Reactions to these actions represent the What's Next? This is why we are here today - to rally and push back against the tyrannical policies of the current administration and its allies. It can't stop here.

Our Counteractions can deal with the "What- Ifs" – How do the outcomes from *the action and reaction phase* shape future events? How do we prepare for a long-term fight? What will be the indicators of our success?

So, in the **Actions by our adversaries** category: What is happening today?

Elections are the foundation of our Republic. The 2020 Elections are not considered by many to have indicated a fair and secure election process. States continue to investigate weaknesses in their policies and processes.

A few of the outcomes from existing Executive Orders, policies, laws, regulations, and actions *include but are not limited to the following*: As I read these off, do they strike you as "massive changes" that align with the Great Reset?

These current outcomes: Low confidence in election integrity, Increased Illegal immigration, unsecured borders, increased spending and debt, rising inflation including higher gas and food prices, supply chain interruptions, increase in crime, wokeism, de-platforming, canceling, censorship, Critical Race Theory and FBI interest in parental protests to school boards, social justice that is unequal justice, **reductions in the number of small businesses - the lifeblood of our economy**, suppression of information by Leftist media and Big Tech, the botched Afghanistan withdrawal, identity politics that divide people by race, sex, and gender, tyrannical

Covid policies, mandates and shutdowns, a weaker military and national security, attacks on our history and culture, unequal enforcement of the law, and overall, a greater division and polarity within America. Do these represent "massive changes" to you?

RFK Junior, *a lawyer, and son of the late Sen. Robert F. Kennedy*, in an interview by Tucker Carlson on Fox about the Covid policies, stated that: "**All of the Bill of Rights were violated during the pandemic except the 2nd Amendment.** He went on to say:

"The rise of censorship, the rise of the suppression of religious freedoms, of property rights, closing a million businesses without just compensation or due process, the abolition of jury trials, which are guaranteed by the Sixth and Seventh Amendment for any vaccine company that hurts you, all of these -- and the rise of a kind of track-and-trace surveillance state has been troubling to people, both Democrats and Republicans."

Actions by our Adversaries lead to **THE REACTIONS** by all Americans that believe in the Constitution and Bill of Rights.

These Reactions include working to gain conservative control of Congress in 2022 and 2024, along with the Presidency in 2024. A priority is to work to ensure election integrity and counter the attacks on America by the Leftists. The expectation is to reverse the push towards socialism and restore the Republic. BUT, even if we are successful, sustaining this level of control can be temporary. For instance:

Elections have run in Predictable Cycles: "... *modern American elections are about change. In 2008 we got Barack Obama. In 2010 we got a huge backlash to Obama in the midterms. In 2012 we got backlash to the backlash and Obama won again easily. In 2014, we saw Democrats get creamed again. In 2016, after eight years of Obama, we got the ultimate change: Donald J. Trump. In 2018 we had a midterms backlash to Trump. In 2020 we got a second backlash to Trump with Joe Biden. And so in 2021, 2022 (and 2024_... what would you guess is going to happen?"* (Ref: Isaac Saul, Tangle).

How do we help break this cycle and sustain as well strengthen our Republic? What can we do in Brown County?

Given the political and cultural differences, control by one party at the national level will *most likely NOT* bridge the divides in America and may increase them.

What is needed is a **New Plan** that includes a simple but comprehensive strategy that can be successfully applied locally – within our county. A proof of concept can lead to adoption by other counties and states.

I hope I have identified some significant challenges and problems. My military training reinforced the importance to not identify a problem unless you also have a good solution.

The [Brown County Leader Network](#) offers a NEW Solution that includes better and proven methods for improvement. It supports "Top Management" – *We the People* in supporting needed changes. I will provide a little more information later in the talk.

TO REVIEW, the *Actions by our adversary* lead to **Reactions – such as this Rally and a potential landslide in the 2022 elections. These reactions contribute to our needed **Counter Actions**.**

Our **Counteractions** – include what we can do as Citizens, Christians and community members in taking immediate action to shape the future locally that could have national and international impacts.

What Should be in the Plan?

A good first step might include asking God for his guidance in our endeavors that includes sharing the Gospel. We have over 35 churches in the county.

The Great Commission challenges Christians to share the word of God and be the salt and light in our communities **and in** the world. (Mathew 5:13-16)

I came across a national initiative called **Saturate USA**, which provides support for churches and communities to share the Gospel with their neighbors. It includes literature and C.D.s that people can review which may lead to a new or renewed

interest in Jesus Christ. **The goal is to reach 120 million homes by 2027.** The last time I checked their site, there was no involvement in our area.

If any church wants to consider participating in the Saturate USA initiative or needs support for any other improvement initiative, let me know – glad to help.

The design of our system of government was influenced by Judeo-Christian Principles. In America, by law, *We the People* are Top Management. We are responsible for working towards *a more perfect Union and county and ensuring that changes result in improvement.*

At the national and state levels, we have some influence through our votes and communication with our representatives – whom we can hold "accountable" for better outcomes. But again, we cannot delegate responsibility – that is on U.S. If we are not getting the results we want, we need a new approach.

But we D.O. have more influence on what happens at our local level of government and within our community. Success in applying new approaches and methods locally can have state, regional, and national impacts.

To Summarize:

Regarding the outcomes from the Actions of our adversaries: Our Republic is under unprecedented attacks – globally as well as nationally.

Our Reactions? We are and can fight back through Freedom Rallies, Resistance, Non-compliance, Supporting legislative action, and voting.

The 2022 midterms are looking good for conservative control of Congress, and if the **right** changes are made, they can result in electing a conservative President in 2024. **BUT**, can these majorities and positive changes be sustained?

Past trends indicate a NO. Let's try a new approach and demonstrate success at the county level that can serve as an example for the Nation. What new results or outcomes do we expect from our local elected and appointed officials? As top management, do we identify expected outcomes and require a performance plan with goals and objectives? Should we also require updates on the status?

On our needed Counteractions, we can build a stronger defense that includes building a Christian network within our county by sharing the Gospel. – Saturate US is a model that we can test **OR** perhaps there are existing proven strategies within the county?

Surveys indicate a decline in church attendance and the belief in God and the Bible – especially among the young. Can we improve our message?

What I think many may not know is the alignment of Christian principles within the American System of government. The U.S system was designed to be continually improved. The Constitution and Bill of Rights empowers U.S. – *We the People*, to work together towards "*a more perfect Union*" and county.

A key phrase being "more perfect." On the term *perfect*, the context is provided in the Bible. Only God is perfect; man is imperfect and expected to improve. Jesus is the standard of perfection.

Christian principles include the belief that *actions motivated by Love can result in more perfect outcomes where everyone can benefit, or at least, will not be any worse off in the long-term.* What's not to like? *Actions motivated by Love that produces better results?*

The importance of working towards more perfect outcomes align with the best practices in the area of quality management. Quality management includes **methods and tools** for making changes that can result in more perfect outcomes. [The Brown County Leader Network](#) supports the application of the methods and tools.

Our founders did not have the methods and tools for improvement that we have today. This is the "What's New?" in our strategy – this is our advantage.

In conclusion (Wrap it Up)

"Our Nation is in deep peril. We are in a fight for our survival as a Constitutional Republic like no other time since our founding in 1776".

Our founders and the other patriots that participated in the Revolution in 1776 – fought and died to give us a Constitution and Bill of Rights – the last line of

defense for the Republic. We fought a civil war to maintain this Republic so that in Lincoln's words: " *a government of the people, by the people, for the people shall not perish from the earth.*"

Action by *our adversaries* leads to *our reactions and contributes to our counteractions*. Our counter actions must not only include things we can do in the short term that was mentioned previously but a new strategy, plan, and methods that, if we apply successfully and sustain at the local level, will have local as well as national and global level impacts.

Unlike the early patriots, our battles won't be won with armed militias facing a great power, but with God' help, our battles will be won with Leadership and better strategies supported by Americans that understand we are the last bastion of hope for liberty in the world.

There's a saying that 80% of success is showing up, and I would add the other 20% is getting the right things done. Let's work together as a community to get the right things done!

That concludes my talk. **Thank you again for coming today!**
