

# EARLY ED FOR ALL

Early childhood education is a once-in-a-lifetime opportunity for Brown County children, their families, and our community. We believe world class opportunities, small school relationships, and lifelong impact begins with *early education for ALL*.

## BROWN COUNTY CHILDREN *deserve great early education opportunities*

Did you know that 85% of brain growth happens before age 5? Less than 40% of low-income children in Indiana are enrolled in high-quality early education programs.

## BROWN COUNTY FAMILIES *deserve access to excellent care*

Too many caregivers cannot afford or cannot find quality care in their communities, preventing them from entering the workforce and pursuing higher education.

## BROWN COUNTY COMMUNITY *needs early education for all*

Brown County leaders, employers and workers know that without great early education, our community is missing out on essential economic opportunities.
