

BROWN COUNTY SCHOOLS

SINCE 1835

There's a lot to be proud of in our Brown County Schools

- **Eagle Manufacturing, our Career and Technical Education Program.** Students are learning skills in technology, design, manufacturing, marketing, customer service, logistics and business to prepare for careers upon graduation.
- **Our new Early Childhood Center.** We provide quality preschool options for Brown County residents. BCHS has designed a "Grow your Own" pathway that enables our own high school students to become certified preschool teachers.
- **Winning Traditions.** National We the People winner; Indiana History Teacher of the Year; STEM Certified Middle School.
- **Academic Excellence and Support.** Science teachers in all of our elementary schools. Courses in Science, Technology, Engineering, Math and Science. Coursework in Bio Med, cybersecurity, advanced manufacturing and computer science.
- **Preparing Tomorrow's Business Owners.** We have developed a new Business and Entrepreneurship program for our students. We will soon add Hospitality, Tourism and Civics Arts to our curriculum.

We are Proud of Our Brown County Schools

We are Brown County Proud!

Saluting Our Veterans and Those That Serve

We hold the largest and most prominent annual Veteran's Day program in Indiana. We also recognize those who have accepted the call to military service at our graduation events.

Healthy Brown County

We partnered with various Brown County agencies to open a health clinic to serve all Brown County residents. The health clinic has saved taxpayer dollars while providing a vital resource for our fellow residents.

We believe in CommUNITY!

The Career Resource Center remains one of the best partnerships ever developed between our Brown County Schools and our community. For **twenty years**, we have expanded opportunities for adult education options and community lifelong learning. Thanks to the past referendum, funding supports the activities of the CRC. Over 16,000 participants have completed professional coursework to prepare them for better-paying jobs.

"Thank you so much for supporting our Brown County Schools. We believe in developing partnerships with you and other residents so that we all work together to make our community a better place to live, work and raise a family."

Emily Tracy, Superintendent, Brown County Schools
